

Science - Year 2

Animals incl. Humans – Block 2AH

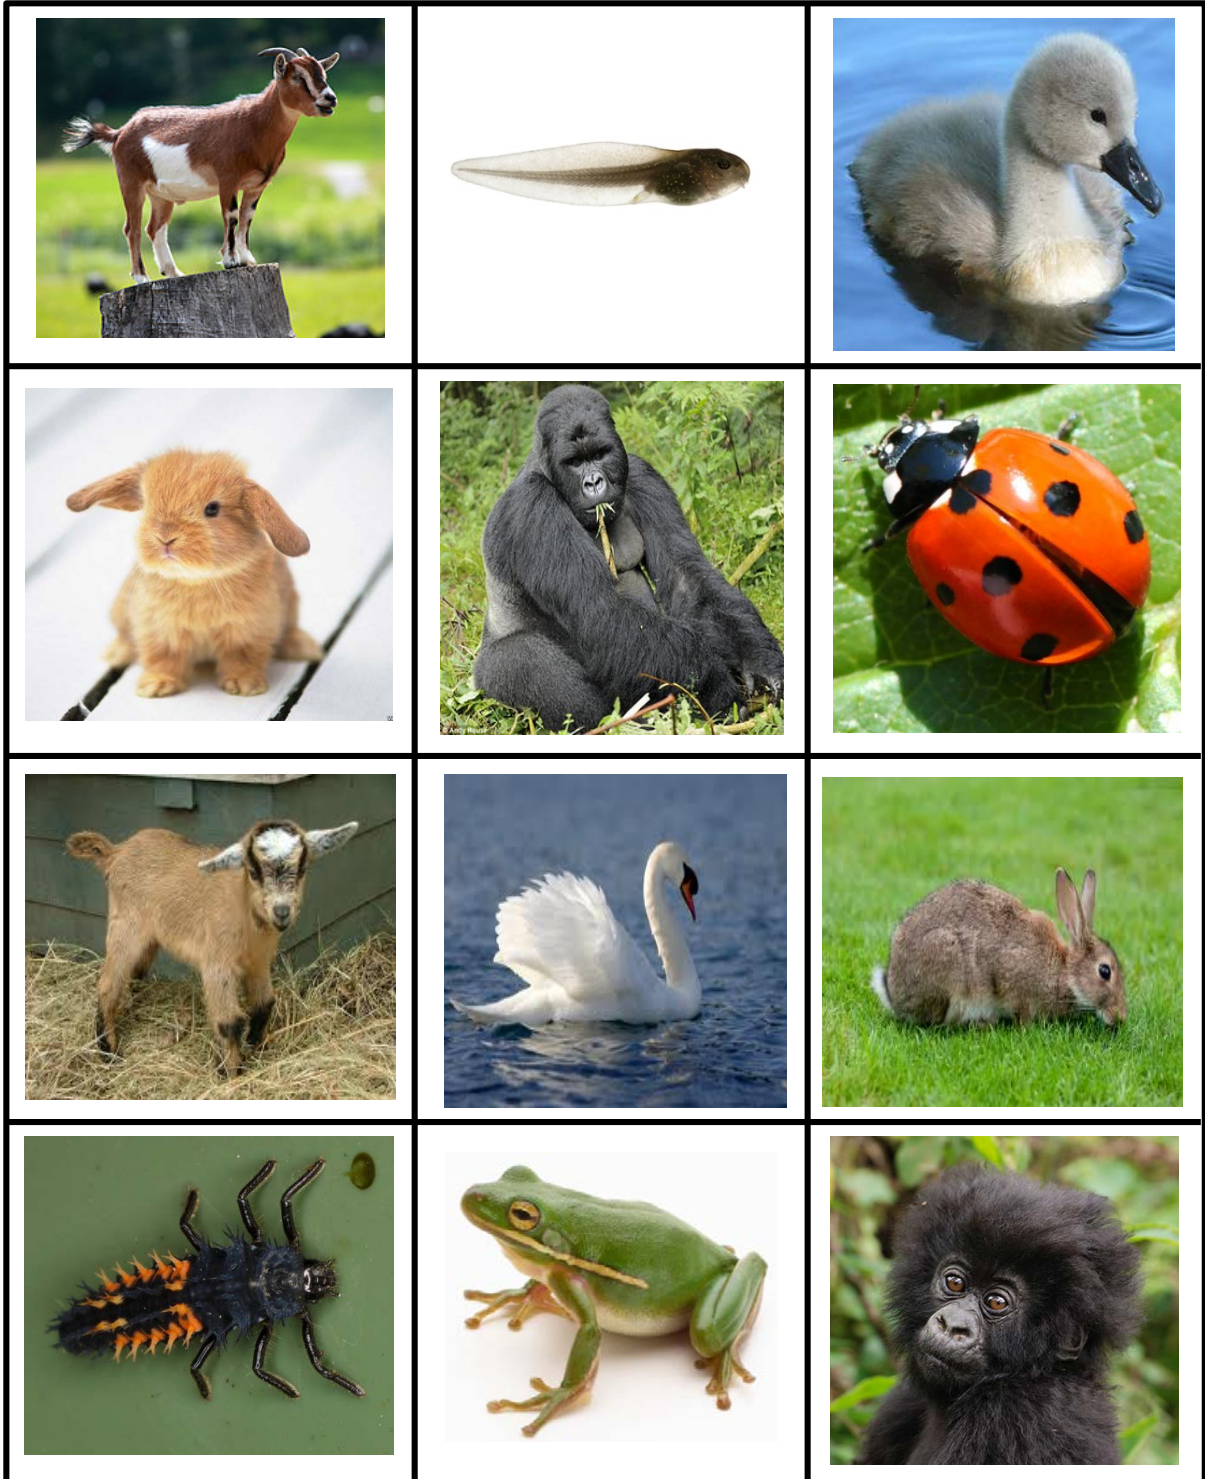

Healthy Animals

Session 2

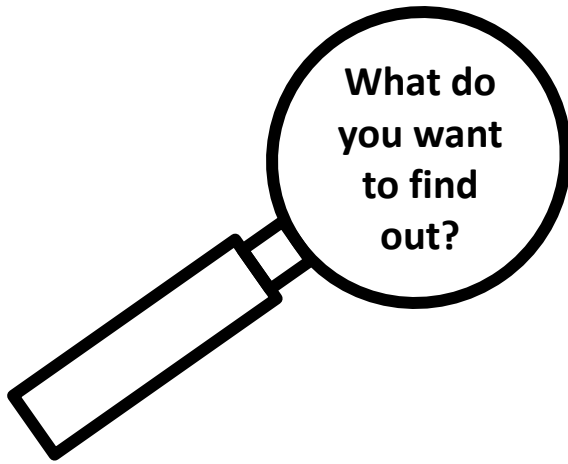

Resource pack

Can you match the babies to the adults?

Place the cards on the table, face down. Can you turn one over and then another and match the adult to the baby? If you have a match, keep the cards. If you don't, turn both face down again so someone else can have a go. Watch carefully and remember where the matching adults and babies are!

Question-aids

Scientists ask questions all the time! They write lots of questions, decide on the most important ones and then go in search of the answers.

The circles might help you think of questions.

Can you write a question about keeping the baby healthy here?

Why not write a question about what the baby eats here?

Questions for our visitors with babies

Why not write a question about the baby growing here?

Can you think of a question to ask about why the baby cries?

Can you write a question about how the toddler is similar or different to the parents?

Can you write a question about keeping the toddler healthy here?

Why not write a question about what the toddler eats here?

Questions for our visitors with toddlers

Why not write a question about the toddler growing up here?

Can you think of a question to ask about why toddlers cry?

Can you think of a question about how the toddler has changed since being a baby?

Can you write a question about making sure things are ready for the baby coming?

Can you write a question about keeping healthy when you are having a baby?

Why not write a question about what is best to eat when you are having a baby?

Questions for our visitors who are pregnant

Why not write a question about the baby moving inside the mummy?

Can you think of a question about how it feels to have a baby inside you?

Can you think of a question about how things change when a mummy is expecting a baby?
